THE ANDERSON COUNTY REVIEW 10-31-2024 / DANE HICKS

Top wind speeds of 51 mph were recorded at Garnett Industrial Airport on Tuesday in the middle of a three-day tempest that was to precede thunderstorms expected last night. The wind straightened out flag displays like this one at East Kansas Agri Energy and

played havoc on electrical connections, with several short-term power and internet outages reported in Garnett over the period. Hopes were for the storm to bring some much-needed rain to the parched area.

Woman describes brutal trail attack in court document

Victim says illegal immigrant stuffed leaves in her mouth

BY DANE HICKS THE ANDERSON COUNTY REVIEW

SCIPPIO - Charging documents filed by investigating officers detail the alleged brutalization of an Ottawa woman bicycling on the Prairie Spirit Trail earlier this month when she says an illegal Mexican immigrant tried to rape her.

The probable cause affidavit with statements from the victim detail the October 10th attack in which the 64-year-old bicyclist says Porfirio De La Cruz-

Cantu clotheslined her as she headed for home on the trail just south of Scipio, pounced upon her in an attempt at forcible sex, and stuffed fallen leaves in her mouth as she struggled in an attempt to keep her from screaming.

The affidavit was obtained by the Anderson County Review under a special provision in Kansas law which allows 10 days for such requests to be acted upon by the court.

Though the document details the victim's assertions to investigating officers that she believed De La Cruz intended to rape her, he is presently charged with felonies including battery, criminal restraint and mistreatment of an elderly person.

The woman said she had passed De La Cruz who was pedaling north on his bicycle

Commissioners put some skin in the game with adoption of city nudity ordinance

Law drafted after more locals cause mischief in the buff

BY DANE HICKS THE ANDERSON COUNTY REVIEW

GARNETT - City commissioners this week stripped bare the municipality's non-existent prohibition on public nudity by adopting an ordinance that, under penalty of law, requires you to keep your skin to yourself.

Commissioners adopted ordinance number 4267, "An Ordinance Defining Public Nudity and Declaring Public Nudity to be Unlawful." The ordinance attempts to define degrees of public nudity and places where they are and are not appropriate. The law came about as a result of

a local man who burglarized a Catholic Church in Garnett and was found sleeping naked in one of the pews.

Thirty-seven year-old Dustin Smith faces charges in the incident, but this and another recent case of a woman walking sans clothes through the streets of Garnett pointed out a naked truth - though the city had prohibitions against public sex relieving one's self outdoors - "public defecation" - it had established no parameters against parading around in one's birthday suit.

"Places set apart for nudity," a portion of the ordinance reads "means public places outside of the home where nudity or exposure is necessary and customarily expected; including, but

Man charged with Crest school burglary

BY DANE HICKS THE ANDERSON COUNTY REVIEW

COLONY - A Colony man with an extensive criminal history will face charges of methamphetamine possession, theft of property and being a felon in possession of a weapon in connection with two burglaries of the Crest High School building last week.

A statement from Colony City Marshall Angela Gardner said school surveillance cameras recorded 34-year-old Joshua Lohff

entering the combined Crest elementary and high school facility at Colony around 4:30 a.m. on October 20 and October 22. Lohff was identified on the footage by several people who knew him. Anderson

Lohff

County Sheriff's officers later arrested him October 22 at his home without incident.

Court records show Lohff pled no contest to misdemeanor marijuana charges in April 2023 and pled no contest to a subsequent parole violation before being released from parole in April 2024. He received a diversion in a June 2020 case alleging he had installed a camcorder and recording equipment without consent.

Women evade FRCO deputies in foot pursuit near Richmond Lake

BY DANE HICKS THE ANDERSON COUNTY REVIEW

RICHMOND - Local Law Officers think a felony burglary investigation is linked to a misdemeanor theft at a Garnett convenience store

which led law enforcement on an unsuccessful hunt for two women in rural Franklin County Tuesday night.

Anderson County Sheriff

Vern Valentine said leads developed during the burglary case led to a possible connection to the theft incident at Maple Street Liquor on Tuesday. Franklin

County Sheriff's deputies pursued a suspect vehicle with the two females to a point near Richmond Lake

Lohff is presently being held at the Anderson County Jail pending a \$125,000 bond for aggravated burglary theft and possession of illegal drugs and is subject to a no bond warrant from Labette County.

Gardner said all but two of the items taken from the school had been recovered.

My name is Mike Blaufuss and I'm running for Anderson County Commissioner for the third district. My goal is to keep a balanced budget with keeping our taxes low as possible without jeopardizing the infrastructure of our county. I believe we need someone in office with a business background to help achieve that goal.

I am Jody Cole and I am running for City Commissioner. Growing up in Garnett, I enjoyed a thriving, close-knit community that I was proud to call home. I fondly remember afternoons spent swimming at the town pool, evenings on the softball fields, and weekends bowling, roller-skating or ice skating in the winter at the fairgrounds. Our town offered us so much—whether at the recreation center, on the golf course and tennis courts, or fishing at the lake. These experiences didn't

ANDERSON COUNTY COMMISSION OCTOBER 21, 2024

Chairman Leslie McGhee called the meeting of the Anderson County Commission to order at 9:00 AM on October 21, 2024 at the Anderson County Commission Room. Attendance: Leslie McGhee, Present: David Pracht, Present: Anthony Mersman, Present. The pledge of allegiance was recited. Minutes from the previous meeting were approved as presented.

Swank Park
Chris Titman and Scott Black were present. They expressed how they utilize Swank Park for recreation purposes. They expressed their reasonings on why they would like the Commissioners to keep Swank Park.

Road & Bridge
Ethan Lickteig, Road & Bridge Supervisor, met with the commission. He presented the quote from Foley Equipment to replace the power train on a motor grader. The quote is for a Cat Certified Power Train rebuild with warranty by Foley Equipment for \$178,891. The repair is required for the machine to work so the Commissioners approved the repair. Ethan had sent a spec sheet for a new grader to Caterpillar, John Deere, and Komatsu. The bids were Caterpillar \$343,000, John Deere \$368,429.65, and Komatsu \$383,000. Ethan explained the differences between the Caterpillar grader and John Deere grader and how he preferred the John Deere due to a sealed circle on the machine and the DPS system is for the life of the machine and does not need to be maintained. Commissioner Pracht moved and Commissioner Mersman seconded to purchase a John Deere 670G motor grader for \$368,429.65 to be paid out of the special equipment fund. All voted yes.

Treasurer/Appraiser
Dena McDaniel, Treasurer; Harold Deforest, Deputy Treasurer; Adam Wilson, Appraiser, met with the commission. Kansas legislation was passed stating Appraiser's offices no longer must mail out rendition notices which state what personal property a taxpayer owns. Once the personal property has been reported to the Appraiser's office, it will stay on until the taxpayer informs them it has been sold or no longer own. The Treasurer's office thinks this will be a problem when taxpayers pay their taxes and realize the statement is incorrect. Adam has no intention

of mailing the renditions but will mail a letter out this year informing the taxpayers of the change and what to do if they have sold or need to add personal property.

Certificates of Commendation
Mark Locke, Emergency Management Director, and Troy Armstrong, EMS Director, met with the commission. They awarded Certificates of Commendation for the outstanding work regarding a toddler drowning call in Greeley last month. Anderson County employees who were awarded were Wes McClain, Krystal Donaldson, Heather Wadewitz, Doug Meyer, Cruz Gillespie, and Jarod Muncy.

2025 County Attorney Budget
Steve Wilson, Garnett, met with the commission. He discussed a proposed County Attorney budget utilization for 2025. He is requesting his salary to be \$40,000 and hire an assistant County Attorney for \$40,000. This assistant would be leading the criminal cases for at least the first year until Mr. Wilson feels comfortable in that position. The Commissioners think that strategy is commendable and attainable as long as he stays within the whole 2025 County Attorney budget.

Executive Session
Commissioner Pracht moved and Commissioner Mersman seconded to enter into executive session for 15 minutes for non-elected personnel. Commissioners; James Campbell, County Counselor; Julie Wettstein, County Clerk were present. Commissioner Pracht moved and Commissioner Mersman seconded to re-enter into open meeting. All voted yes.

Adjourn
Meeting adjourned at 12:00 PM due to no further business.

BURNETT

APRIL 4, 1931 — OCTOBER 10, 2024

Kathryn Louise (Wilson) Burnett, 93, died Thursday, October 10, 2024 in Salina, Kansas. Beloved Mother of Dr. Michael E. Burnett (Beth), East Lansing, Michigan and Dr. Larry E. Burnett (Brenda), Salina. Loving grandmother to Dr. Tim Burnett (Dr. Chelsea), Springfield, Missouri, Brianne Burnett Powers (Robert), Fairfax, Virginia, Lisa Burnett, Salina, Chelsea Burnett Yount (James) of Sandwich, Massachusetts, Chase Burnett, East Lansing, and Dr. Stacie Burnett Carlson (Andrew), Kansas City, Kansas. Doting great-grandmother to Olivia, Casen and Coulter Burnett, Elle, Isla and Luke Powers, Sophia Popelka, Carter and Maeve Yount and Hayes Carlson. She was blessed with two brothers, Dr. Howard Wilson (Doris), Garnett, Kansas, and the late Lloyd Wilson (Rosemary), Osawatomie, Kansas. She will also be missed by numerous nieces and nephews.

Burnett

Wilson. She graduated from Parker High School in 1949 and then attended business school in Kansas City, Missouri. She met Glenn Edward Burnett in high school and they married in 1951. They had two sons, Michael and Larry. They lived in rural Parker, Kansas until they moved to Towanda, Kansas 1965 when Edward worked for the USDA Soil Conservation office in El Dorado, Kansas. She worked for the Butler County Motor Vehicle Department in El Dorado for 22 years. Ed passed away in 1986.

In 2004, she married John E. Burnett and moved to Overland Park, Kansas. John passed away in 2018. She then moved to Eaglecrest Independent Living Community in Salina to be closer to family.

Kathryn was a wonderful homemaker and cook and always had a meal ready and cookies baked. She enjoyed and was loved by many dear friends over the years but her priority was always her family, of whom she was so proud and loved dearly, especially her grandchildren and great-grandchildren.

Graveside service was held on October 24th in Osawatomie, Kansas. Memorials to Gentiva Hospice or the charity of your choice.

Colony Christian Church - "Not Ashamed of the Gospel"

Pastor Chase Riebel preached from Romans 1:16. The title was "Not Ashamed of the Gospel." In 1 Corinthians 1:18 we are warned that the Gospel message may seem foolish but it has the power to save our souls. Romans 1:20 leaves no excuse for non believers as all of creation speaks clearly of the power and goodness of God. Rochelle Smart led worship singing "Amazing Grace," "The

Lord's Prayer," "Do Lord" and "Goodness of God." The congregation sang Happy Birthday to drummer Ethan Prasko.

Bruce Symes gave the communion meditation. Our freedom to vote in elections is a sign of our physical freedom as citizens. Our freedom that comes through Christ is a spiritual freedom that frees us from the bondage of sin. Regular Sunday service is at 10:45 a.m.

limited to, public restrooms, locker and or dressing room facilities, enclosed motel rooms and hotel rooms designed and intended for sleeping accommodations, portions of doctor's offices and hospitals set apart for this purpose."

"It is unlawful for any person knowingly or intentionally to appear in a state of nudity in a public place," says the ordinance.

Kansas law defines indecent exposure separate from public nudity, defining the former as exposing a sex

organ with the intent to sexually arouse someone. Indecent exposure is a Class B misdemeanor punishable by up to 6 months in prison and up to \$1,000 in fines.

If indecent exposure was committed in the presence of someone under 16 years of age, it is a felony punishable by up to 13 months in prison and up to \$100,000 in fines for a person with no prior criminal history.

The Garnett ordinance takes effect as of its publication in today's Review.

Who are you as a Christian?

If someone would ask you the following question what would you say? Who are you as a Christian? Most people would probably respond, I am a follower of Jesus Christ. That would be a correct answer. However, there is so much more that the Bible tells us a Christian is. I have always clung to the following definition of a Christian. One who is a child of the Living God and a servant of Jesus Christ. In Romans 1:5 Paul provides us some insight into this when he says, "In love he (God) predestined us to be adopted as his sons through Jesus Christ, in accordance with his pleasure and will-to the praise of his glorious grace which he has freely given us in the one he loves." Predestined means that what ever comes to pass was ordained long in advance. God does not look down the corridor of time and look at our life, he (God) ordained long ago that we would receive Jesus Christ as our Savior. Just as we have a certain amount of time on this earth, which God alone controls, our very own salvation will come to pass in God's time. When our salvation comes to pass we receive son ship with God, he becomes our Father, through the blood of Jesus Christ, the forgiveness of sins in accordance with the adop-

tion by God, through Jesus we become a child of the Living God.

The other half of the equation being a servant of Jesus Christ revolves around us submitting our will to Jesus. In Matthew 19:16-30 Matthew relates a conversation between a young man and Jesus which illustrates this very well. The young man questions Jesus concerning eternal life. Ultimately he walks away from his opportunity to receive eternal life because he couldn't put Jesus in front of his wealth. To be a servant of Jesus Christ means putting him at the head of your life. A servant is not greater than his master. In Philippians 2:7-8 we read, "And being found in appearance as a man he (Jesus) humbled himself and became obedient to death-even death on a cross!" Because of what Jesus did, becoming a servant to the Father, we must become servants to him.

Oops, I voted for Hitler...again

How could I have been fooled?
I've kept the flag of Israel on my newspaper's Facebook page since Oct. 7; I still get chills thinking about the photos my father-in-law shot when he was an Army private in 1945 at the Buchenwald concentration camp; I visited the Holocaust Museum in Washington, D.C., years ago and can still smell the melancholy finality of the "shoe room." Heck, I even listen to Ben Shapiro almost every day.
Yet last week, as soon as the advance voting polls were open in my county and I'd finished pulling the wings off my allotment of flies for the day, I voted for Hitler.

Go figure. As it turns out according to the frenzied ravings of America's Left, all the presidential ballots of my Old Testament-loving voting life have been cast for Hitler. I know, right. I'm a riddle wrapped in a mystery inside an enigma – like one of those Chocolate Lovers Twinkies.
Vigilant Democrats have illuminated for me that voting for Hitler has been a habit of mine every presidential election since 1984, in fact. In those short election year interims that I've been able to relax the death grip I keep on my gun and my Bible long enough, I've picked up a pen and blackened the oval for whatever version of the immolator of Europe and the murderer of 20 million human lives the Republicans were offering me that go-round.

And these have been no Mel Brooks versions of Der Fuhrer, mind you; not the singing, dancing, spiffy-costumed, hit-Harvey-Korman-in-the-face-with-a-pie versions of the head cheese of The Reich you remember from "The Producers" or "To Be Or Not To Be."

No, these were Hitlers with blood dripping from their fangs, who went by names like Ronald Reagan, G.H. and G.W. Bush, Bob Dole, Mitt Romney and now Donald Trump. To hell with supply side economics, pro-business policy, smaller government, tax cuts and jelly beans – these guys all wanted Poland.

And this was just the top of the ticket. It turns out there've been truckloads of Hitlers running for office on Republican ballots of states far and wide for decades – congressmen, senators,

Rotary Club presidents – at least according to the historically competent, moral and compassionate Democrats who have once again dictated the qualifications to head up the New Third Reich.

After all, who better to know a Hitler when they seen one than the folks who celebrate the killing of 600,000 innocent babies every year as "reproductive rights?"

Indeed, we Republicans seeking outright malevolence like border security, economic progress, American excellence and an unstoppable military have sought a long line of Hitlers to lead us. Some of you more seasoned than I will recall Senator Barry Goldwater having dared to visit a military installation in Germany and give an interview to conservative German magazine Der Spiegel in which he radically declared his position on Vietnam was to allow the generals to win the war. For such inside-the-beltway heresy, California Governor Pat Brown pronounced "The stench of fascism is in the air" when Goldwater was nominated by the Republicans to run for president in 1964.

Of course the Hitler I remember best was my first, and liberals hated him almost as much as they hate Donald Trump. I remember specifically those Islamic thugs releasing the U.S. embassy hostages after 444 days in captivity literally within hours of Reagan's inauguration. The message didn't sink in on St. Louis congressman Bill Clay from St. Louis, who later alleged the president who brought down the Berlin Wall and rebuilt America economically and militarily after the disastrous Carter years was "trying to replace the Bill of Rights with fascist precepts lifted verbatim from Mein Kampf."

And remember when Republicans gained control of Congress in the 1990s for the first time

Here's how NYT seeks to silence us a week from election

On Monday, I was wondering what exactly the October surprise from the Democrats and the media would be; one week out from an election and they haven't had much. Is attacking comedian Tony Hinchcliffe and supposed jokes about Puerto Ricans all they had? Is that really all they had in their bag?

And then I received a text.
It came from a reporter at the New York Times, and read as follows:

Good day, Mr. Shapiro. I hope you're well. I'm Nico Grant, a reporter at The New York Times. I wanted to give you an opportunity to comment for an upcoming article that takes a look at how political commentators have discussed the upcoming election on YouTube.

We rely on an analysis conducted by researchers at Media Matters for America. Could you kindly provide us with a comment or decline to comment by the end of day tomorrow, Tuesday, October 29? Thank you so much for your time.

Here are points we plan to include. Media Matters identified 286 YouTube videos between May and August that contained election misinformation, including narratives that have been debunked or not supported with credible evidence. Researchers identified videos posted by you in those four months that contain election misinformation. We feature a clip of you saying, "... Your party rigged many of the voting rules in advance of the election in order to ensure an extraordinary number of mail-in ballots, ballot harvesting ..."

I also have a few questions: 1. Are you a member of the YouTube partner program? 2. If so, how

NATIONAL COMMENTARY

BEN SHAPIRO, THE DAILY WIRE

frequently does YouTube demonetize your videos? 3. Has YouTube sent you messages, emails or notices in the last year that your content contains misinformation? Thanks for your time.

This is not just a text. This is the October surprise.

Here's what the New York Times was planning, as they were pretty obviously and clearly working with Media Matters for America, which is a far-Left radical organization, started by David Brock in an overt attempt to destroy all conservative media. Media Matters was launched to astroturf boycotts on conservative media and anyone who would advertise with conservative media.

Media Matters became incredibly famous by essentially launching secondary boycotts

girls' and women's sports. And 68% opposed giving children ages 10-14 access to puberty-blocking medication, and 58% opposed teens ages 15-17 having access to hormonal treatments.

It's only now, when they are getting punished on the issue, that Democrats are coming out and saying, in effect, that they've favored the gender binary all along.

Fighting off a challenge from Democratic Rep. Colin Allred, Texas Sen. Ted Cruz has targeted the congressman for his opposition to a bill called the Protection of Women and Girls in Sports Act. In a sign that the attack was working, Allred responded in his own ad: "I don't want boys playing girls' sports or any of this ridiculous stuff that Ted Cruz is saying."

This led to denunciations of Allred from the left. According to the LGBT publication The Advocate, he "embraced far-right language around gender identity in a new ad" -- the offending words presumably being "boys" and "girls."

Most of our brave border patrol officers who daily risk their lives to protect this country are Hispanic. Never forget that Kamala Harris has compared them to the Ku Klux Klan and falsely accused them of whipping black Haitian illegals coming across our border. Kamala Harris's open border policies resulted in the deaths of countless migrants and U.S. citizens, mass rapes and exploding sex slave trade. This is why the Border Patrol endorses Trump.

The Democrat Party drips with demonic evil. Kamala Harris again just met with Al Sharpton Democrat Party leader, given a national platform my Democrat-controlled Comcast on MSNBC, the famous inciter of riots and violence and slurs against Jews in New York.

In the October 24th edition someone referenced

on people like Rush Limbaugh. They've tried it with us at Daily Wire as well. They've tried it with our hosts. This is what they do.

The New York Times is overtly, clearly admitting to using Media Matters research in order to pressure YouTube to demonetize people on the Right and destroy them, because when you are demonetized, that also limits your reach.

They want to destroy the dissemination of information from people on the Right one week prior to an election.

That's what's going on here. It turns out the October surprise from our media, along with Media Matters — again, both Media Matters and the New York Times are Democratic apparatchiks — is an overt attempt to silence dissent one week before an election.

That is what this is about. That is what the text is about. That's the entire game. They run an article on the front page in the New York Times saying that YouTube is subsidizing election misinformation which, in turn, pressures YouTube (owned by Google, the number one donor to the Democratic Party) to censor any and all hosts, any and all information that disagrees with the Left.

The important point is: They didn't just reach out to me. As we now know, they reached out to pretty much everybody on the Right, other hosts from The Daily Wire, people like Tucker Carlson — everyone on the Right.

Why?

SEE **SHAPIRO** ON PAGE 8

Democratic fascist, which is an oxymoron, because the definition of fascism is a far-right authoritarian ultra-nationalist political ideology. Democrats are not fascist.

Prominent Democrat serpent-headed strategist James Carville is openly calling for Democrats to disregard any fairness, meaning their outright lying and cheating is justified, equating it to "slitting the throats of Nazis in World War II." Demonic Democrats and Harris are ratcheting up their inflammatory rhetoric screaming that Trump, who is the most pro Jewish president ever, is Hitler. They're trying to incite even more Democratic fanatic assassination attempts on Trump.

Democrats always create a problem with their idiotic policies then blame someone else for the disastrous results. Biden/Harris's war on fossil fuels, government regulation and massive stupid spending caused skyrocketing inflation. Now Harris blames grocery stores for absurd "price gouging," as though they all conspired only during her administration to engage in price gouging. It is well known that grocery stores operate with the smallest price margins of any business, only a few cents on each dollar.

As I sit in this here tractor cab having just moved from field to field, I'm debating which I like doing best in this here county. Do I like bouncing over the Rocky Mountains along one side of the gravel road as I meet someone, or would I rather see how many trailings I can hit with my John Deere Starfire 7000. On a different note one thing that did make my day was seeing the county boys mowing a minimum maintenance road dutch. Grass sure is getting thick boys. Signed, just a young farmer.

Filling out the form for city hall to be able to discuss your utilities is ridiculous. If you need proof I'll bring picture ID and proof of address when I have something to discuss. You don't need a copy of my driver's license and my personal information in your files. They're not that secure.

There's a guy on the ballot for county attorney who has no experience for the position and before he's even elected, the commissioners have tentatively approved him hiring another

Mystery Trip continues, day 5

Day 5
Up at 6:00 a.m., breakfast at 6:45 a.m. and bags out by 7:00 a.m. We left Fond du Lac, Wisconsin behind at 8:15 a.m. By now I'm sure everyone has figured out that Fond du Lac was our destination and we toured all around for three days.
Our first stop of the day was at a Super Wal-Mart in Madison, Wisconsin for a 45 minute rest stop. After our morning break, we settled back and watched a few videos by Lee Greenwood and Jeanie Robertson.
At 11:10 a.m. we crossed the mighty Mississippi River into Iowa. At 12:00 p.m. we arrived at Catfish Charley's in Dubuque, Iowa. Here we boarded the "American Lady" for a two hour

lunch cruise. It was great for sightseeing and the lunch was wonderful. By the way our cruise was on the Mighty Mississippi River.
After docking in the Dubuque Yacht Basin, we loaded back on our bus and we were soon on our way once more. Our next

stop was at the original movie site of The Field of Dreams, "The most magical place on Dirt".
We took a tour of the house used in the movie. Next we walked down to the baseball field bleachers and one of the original ghost players, Frankie Dardis, talked to us about the filming of the movie and giving us some insider information. He even took the mound and pitched to several batters from our bus.
At 5:00 p.m. we checked into the Drury Inn & Suites in Coralville, Iowa and enjoyed their Kick-Back meal before retiring for the night.
To be continued...

since Moses, and Democrat congressman John Dingell from Michigan compared the new U.S. House to "the Duma and the Reichstag;" – the legislature in Czarist Russia and the German parliament that brought Hitler to power? Yeah. Not much actual oppression in those years as I recall; just Monica Lewinsky and a certain blue dress and 'it depends on what the meaning of the word "is" is...'
There was Democrat Daddy Warbucks George Soros calling out George W. Bush as a Nazi for the audacity of killing Islamic terrorists after 9/11. There was "tally me banana" performer Harry Belafonte pronouncing Bush a racist for the crime of being white. When some tallyman tallied me number of blacks in the Bush Administration and the upper level management positions they held, Belafonte had a comeback: "Hitler had a lot of Jews high up in the hierarchy of the Third Reich." Well, that settled that. Dayayoy!
In a 2012 article in the Abilene Reporter-News, writer Larry Elder recounts NAACP Chairman Julian Bond playing the Nazi card on numerous occasions during the Bush years. Speaking at historically black Fayetteville State University in North Carolina

in 2006, Bond told an audience "the Republican Party would have the American flag and the swastika flying side by side."
Wisconsin Governor Scott Walker tried to trim excessive public employee packages in the state and was dubbed by leftist bloggers a fascist, "perhaps not in the classical sense since he doesn't operate in the streets, but a fascist nonetheless..." South Carolina Democrat Party Chairman Dick Harpootlian in 2012 referred to a Republican press conference with Governor Nikki Haley as Haley being "down in the bunker, a la Eva Braun." Kansas' own Democrat National Convention Delegate Pat Lehman invoked Hitler in calling Mitt Romney a liar: "It's like Hitler said: If you're going to tell a lie, tell a big lie, and if you tell it often enough and say it in a loud enough voice, some people are going to believe you," Lehman told the Wichita Eagle in 2012.
Mitt Romney channeling Hitler? Wink Martindale's stunt double? Seriously?
The irony of course is that if this election's Hitler becomes president, Democrat voters themselves are going to fare better than with their own alternative. Deep down they know that, because they remember the previous

Donald Trump presidency and because even they recognize an empty bucket when they look at Kamala Harris.
But that'll never satisfy the elite Democrat king makers who culled the duly elected if enfeebled Joe Biden from the ticket, implanted Kamala the Klown, and are now terrified that the scheme doesn't seem to be working – even among the intersectional coalitions of gays, minorities, queers, abortionists, race hustlers and criminals they've spent every election since 2008 trying to convince of their imaginary victimhood. Even the "diverse" America, it seems, has begun to outgrow them.
Since they lack a plan Americans want to buy into they've fallen back to ruining this Hitler financially; they've tried manufacturing legal actions against him; they've tried maligning him; they've even tried killing him.
But Hitler's still on his feet with a plan to Make America Great Again and millions of us minions ready to work to make it a reality. With no ideas and out of options, all his name-calling opponents have left is their visceral, irrational hatred. Very shortly, we'll find out if that's enough.####

ELECTION 2024

Mark Powls (R-Write-In) Garnett City Commission

My name will not be on the ballot but there is a space for, “Mark Powls”, so write it in. Garnett property owners require relief from an unconstitutional taxation of “personal” property (homes, commercial use buildings, barns, sheds, or anything bought or built to be placed on our land). This taxation is a direct violation of the original ordinance of the Kansas Constitution and there is remedy if our city and county commissioners have the will to fix this at the local level and then work with commissions across our state to demand our state legislature correct Article 11 to, once again, be in compliance with this ordinance.

Powls

If the voters write my name in and “order” me to serve as a Garnett City Commissioner, please know that I will not micro-manage, or run, the City of Garnett or its utility departments. The city municipality has a compensated City Manager that is required to manage the various departments and to make the decisions necessary to ensure property owners have consistent and reliable utilities that are maintained in exchange for a utility-use tax. We have good people working for the City of Garnett and it's their duty to build and maintain the infrastructure necessary for private-sector businesses and residents to operate with efficiency and thrive.

City Commissioners are NOT elected to serve as CEOs of the Garnett Municipal Corporation, they are elected to ensure that your utility services are being provided at a fair rate, that our city municipality is not expanding beyond its primary reason for existence, and that the rights of property owners in Garnett are not being infringed upon by its service provider, the City of Garnett. Write my name in if you want a commissioner who will obey his oath to this office.

just fill our days; they instilled in us values of resilience, hard work, being resourceful, and the importance of looking out for one another.

Today, as a City Commissioner and a lifelong resident, I am deeply committed to preserving and enhancing that sense of community I grew up with. My husband, Craig, has also lived in Garnett his entire life, and has been a local business owner for over 35 years. We have raised our two children here. In May, Sophia, will graduate with honors in Finance and Economics from K-State, and Dylan, will graduate with honors in Biomedical Engineering from Oklahoma University.

In my eight years on the city commission, we've accomplished much, from completing a comprehensive street plan that included the Maple Street Highway project to adding several new businesses such as Family Dollar/Dollar Tree and Shortstop. We've invested in our streets, sidewalks, North Lake Road, Cedar Valley Reservoir project, while hiring a city grant writer to support our vision. Looking forward, we have ambitious plans for Garnett's future, including our new Water Treatment Plant, improvements to infrastructure, and researching resources to replace and rebuild public recreational spaces to support quality of life projects.

Together, with your support and collaboration, I am confident we can ensure that Garnett remains a vibrant, welcoming place we all proudly call home.

Dr. Prasanth Reddy (R) U.S. Congress, 3rd District

My name is Prasanth Reddy and I came with my family to this country from Chennai, India, when I was a child on the promise of the American Dream. I'm a Republican running for 3rd District U.S. Congressman, and I'm asking for your vote.

I know that American citizenship is the privilege of a lifetime, and I've worked every day to make the most of it. I was raised in Kansas, graduated from Kansas public schools, and earned my bachelor's in microbiology and psychology from Kansas State University and my medical degree from the University of Kansas Medical Center, where I completed my internal medicine residency and clinical hematology and oncology fellowship. I also obtained a master's degree in public health through a National Institutes of Health Clinical Research Curriculum Award program and am an alumnus of Harvard Business School.

I currently live in Lenexa, and am triple-board certified in internal medicine, medical oncology, and hematology. I've practiced medicine and served in leadership positions for more than a decade in various clinical settings, including academia, private practice, and managed care.

When the unthinkable occurred on 9/11, I saw an opportunity to help my country. I signed up for the United States Air Force Reserve, and presently hold the rank of Lieutenant Colonel.

I can also serve my country as the U.S. Congressman from the 3rd District. I'll support our military and work to make sure our veterans don't get mistreated again. I'll support strong border enforcement. I'll fight to make sure each child has an opportunity for a quality education and that every parent has a voice. I'll work to make sure our law enforcement has the resources they need and I'll stand up to the “squad” trying to defund them.

If you vote early or if you vote on Nov. 5, please vote for me.

veteran entrepreneurs, and Representative Jake LaTurner and I are tackling housing challenges. Bipartisan solutions like these are what Kansans deserve.

While some may view inflation as a political game, my priority remains what's best for Kansans. I'm dedicated to strengthening Social Security and Medicare, protecting individual freedoms, and lowering everyday costs. We've achieved meaningful bipartisan progress recently, and I will continue to collaborate with anyone committed to putting Kansans first, ensuring that every voice in Kansas' Third District is represented in Congress.

Rob Smith (R-Write-in) ANCO Sheriff

Hello everybody, my name is Rob Smith and I'm running as a write in for the Anderson County Sheriff. Most may just know me as the tall guy in the big black cowboy hat. I was a deputy in Anderson County and also served as a K-9 deputy there. I worked in Anderson County for the last four and a half years and in that time I got to meet a lot of good folks. I was asked back in February with sheriff Valentine retiring if I was going to run. After being asked by a very large number of people from all over the county I decided I would.

I have been in law enforcement for 14 years and it's what I love to do. I take the slogan protect and serve serious.

I believe that not just people in town should have the protection but the ones out in the county do as well. I want to strive for a better relationship between the citizens of Anderson County and the sheriff office. We are there to protect everyone not just a few chosen ones or to just be seen on the highways making stops. I don't believe in party lines.

I believe we are all Americans and I don't feel the sheriff's office is a place for politics. That is why I'm running for Anderson County Sheriff as a write in. So I would like to thank you in advance for your support.

Smith

es such as employees and the departments that take care of the operations and maintenance of the town.

If elected I would take every opportunity to find ways to make the best use of our tax dollars for the benefit of Garnett citizens. I've always been in the lower-middle class income bracket so I very well understand the value of keeping every dollar possible in your pocket and hoping the taxes you contribute are used wisely! I have no political agenda or anything to gain from being elected aside from serving the community and doing anything possible to make the town I'll be raising my children in a better place to live. For the last 4 years I've also served on the Garnett Fire Department which I take great pride in as well.

If anyone is interested in asking me questions or giving suggestions on what they'd like to see happen, I'm almost always available just reach out! I'll wrap this up by saying I'm grateful to live in a town with a great community of people who care for their neighbors and take pride in their town. If you vote for me I will make sure that every decision I make or vote I cast will be in consideration of all the people that make the town of Garnett great!

ing to the maintenance of the courthouse. Just a few of the projects include waterproofing the foundation, tuckpointing the bricks, refurbishing the Goddess of Justice and the Statue of Liberty, replacing the limestone steps, and refurbishing the windows and installing double pane glass. Three of these projects were completed with grants from the Kansas State Historical Society, Heritage Trust Fund. We are the only county who had received three grants! Also, I implemented the touchscreen voting system and automated vote counting system.

I would like to see the flag restored to the top of the Courthouse, the kiosks repaired properly on the Veterans Memorial, and I would like to look into the possibility of a paved road from Westphalia to Hwy 58. Continuing maintenance of our historic courthouse must not be overlooked as well as keeping our roads in the best condition possible. I am always available to hear the needs of the constituents. I would like to continue serving the people of Anderson County, putting my knowledge to use as the Anderson County Commissioner, District 3.

USDA makes acreage reporting improvements to allow flexibility for urban and innovative producers

WASHINGTON – Urban and innovative agriculture producers will be able to more easily participate in U.S. Department of Agriculture (USDA) programs as a result of acreage reporting improvements. These improvements, implemented by USDA's Farm Service Agency, provide more flexibility for reporting acreage on a smaller scale and identifying innovative planting practices like multi-level planting or vertical farming practices.

An acreage report documents crops and where they are grown on a farm or ranch along with the intended use of the crop. Filing an accurate and timely acreage report for all crops and land uses, including failed acreage and prevented planted acreage, can prevent the loss of program benefits.

“Through USDA's urban agriculture initiative and the opening of USDA offices within urban settings, our Farm Service Agency offices are more frequently engaging with urban and innovative producers,” said Zach Ducheneaux, FSA Administrator. “Filing an acreage report is an important requirement to receive many USDA program benefits, and our small-scale agricultural producers, including urban and innovative producers, will notice a simpler acreage reporting process that better reflects the scope of their unique operations.”

Acreage Reporting Improvements

FSA's acreage reporting software previously allowed acreage to be reported down to .0001 acres, approximately a four-square foot area. Producers will now be able to report acreage-based crops at a minimum size of .000001 acre, approximately a 2.5-inch by 2.5-inch area.

Additional improvements will distinguish alternate growing methods such as crops grown within multiple levels of a building, or crops grown using multi-level or multi-layer growing structures such as panels or towers within a container system. This change allows the distinction of vertical farming practices. Urban and innovative producers will also have the option to report plant inventory along with their acreage-based report, allowing producers to better report the full scope of their operation.

Producers can contact FSA at their local USDA Service Center for acreage reporting deadlines that are specific to their county.

USDA Urban Service Centers

USDA is committed to working with farms of all sizes and in all locations, including those in urban areas. USDA works with agricultural producers through a network of more than 2,300 Service Centers nationwide. To better serve urban farmers, USDA is establishing 17 new Urban Service Centers.

The Urban Service Centers are staffed by FSA and Natural Resources Conservation Service (NRCS) employees and offer farm loan, conservation, disaster assistance and risk management programs.

To find exact locations and contact information for these Urban Service Centers or to learn how to prepare for a USDA Service Center appointment, producers can visit farmers.gov/your-business/urban-growers/urban-service-centers.

For questions, producers should call their FSA county office. Urban operations that are not located near one of the Urban Service Centers can contact one of the more than 2,300 Service Centers across the country by visiting farmers.gov/service-locator.

More Information

The new acreage reporting improvements and Urban Service Centers are part of a broad USDA investment in urban agriculture and innovative production. Other efforts include:

- Investing \$9 million in funding to local organizations that will conduct outreach, education and technical assistance to urban producers and support the urban service centers in 10 cities.

- Organizing 27 FSA urban county committees to make important decisions about how FSA farm programs are administered locally. Urban farmers who participate in USDA programs in the areas selected are encouraged to participate by nominating and voting for county committee members.

- Investing \$5.2 million for Urban Agriculture and Innovative Production (UAIP) competitive grants in fiscal year 2024

- Administering the People's Garden Initiative, which celebrates collaborative gardens across the country and worldwide that benefit their communities by growing fresh, healthy food and supporting resilient, local food systems using sustainable practices and providing greenspace.

- Creating and managing a Federal Advisory Committee

for Urban Agriculture and Innovative Production to advise the Secretary on the development of policies and outreach relating to urban agriculture. The committee will hold a virtual public meeting on Oct. 23. To learn more, register here.

- Providing cooperative agreements that develop and test strategies for planning and implementing municipal compost plans and food waste reduction plans.

- Investing in risk management education to broaden the reach of crop insurance among urban and innovative producers.

- Partnering with the Vermont Law and Graduate School Center for Agriculture and Food Systems to develop resources that help growers understand and work through local policies.

Additional resources include:

- USDA's urban agriculture website;

- Urban producers webpage on farmers.gov;

- Urban Agriculture at a Glance brochure; and

- Innovative Production at a Glance brochure.

FSA helps America's farmers, ranchers and forest landowners invest in, improve, protect and expand their agricultural operations through the delivery of agricultural programs for all Americans. FSA implements agricultural policy, administers credit and loan programs, and manages conservation, commodity, disaster recovery and marketing programs through a national network of state and county offices and locally elected county committees. For more information, visit fsa.usda.gov.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America and committing to equity across the department by removing systemic barriers and building a workforce more representative of America. cle as she was southbound on the Prairie Spirit Trail at about 9:30 a.m. October 10th. She told investigators she turned around to begin her ride home and started to pass De La Cruz again, who had stopped on the side of the trail, when he suddenly swept out his arm and clotheslined her in the neck, knocking her from her bicycle. She said De La Cruz jumped on her and held her to the ground and attempted to stuff leaves in her mouth to stifle her screams for help.

The victim said she was able to free herself and stood up dazed, at which time De La Cruz grabbed her by the arms and forced her to the ground again, this time near the edge of the trail's embankment. She said he attempted to leap on top of her again and she kicked away from him and slid head first down the embankment where she got to her feet and ran north to a nearby house for help.

Investigating officers armed with De La Cruz's description discovered him a short time later on U.S. Highway 59 on his bicycle, photographed him and sent the picture to officers interviewing the victim, at which time she identified the detained man as her assailant. Officers located De La Cruz's wife that afternoon

at a Mexican Restaurant on North Maple Street in Garnett where they both worked. With the aid of another restaurant worker as an interpreter, she told them they were both from Mexico and had entered the United States illegally.

The victim suffered facial and other lacerations, though her injuries were not life threatening.

U.S. Immigration and Customs Enforcement placed a hold on De La Cruz while in Anderson County custody – a formal request for notification 48 hours in advance of his release for any reason. De La Cruz is currently held in the Anderson County Jail on a \$150,000 Bond.

The local incident has highlighted National controversy over illegal immigration in the final week of the national presidential campaign, and heavy criticism of the Biden/Harris Administration which rescinded numerous border security measures instituted by former president Donald Trump when Biden took office in January 2021. Analysts say illegal immigration has set record highs since Biden took office, and illegal immigrant crime has been a heavy focus of critical media reports.

De La Cruz is set for a status hearing in his case on November 26th.

Because their goal is to shut the spigot off so you can't get any information on places like YouTube. Thirty-seven percent of Americans get their news from YouTube, according to Pew Research.

Theoretically, that number is even higher because some people engage with news on YouTube without even knowing it. Political ads run on YouTube. It is possible to watch a non-political video and be pushed to a political video, watch for five minutes, and only then tune out.

Shutting off the spigot on news information one week in advance of an election: That is the New York Times' trick.

Obviously, none of this is about election misinformation and about shutting down "bad information," as everyone knows.

How do I know? Because they reached out to me about "election misinformation." To me, of all people. If you listen to the show, you know I have been perfectly consistent since November of 2020 in that I believe Joe Biden won the 2020 election. I thought Donald Trump had every right to legally challenge that election, but I did not see the actual evidence that the allegations he was making about fraud in the election and the election itself were sufficient to overcome the state certification of the ballots.

So of all the people to come to about election misinformation, coming to me is absolute proof that this trick has nothing to do with election misinformation. Instead, it is about silencing anybody on the Right. That is the goal. It is always the goal for the Left. It's always the goal for the New York Times.

Consider the craziness of this. The New York Times is supposed to be the tip of the spear in terms of freedom of the press and free speech; that same media outlet is overtly and clearly attempting to pressure the biggest video platform on planet Earth to shut off other press outlets.

That's crazy. They say it's a challenge to the press if Trump calls them "fake news." Imagine if we at the Daily Wire called for the New York Times to be completely demonetized and shut down on social media because of misinformation. Would that not be a challenge to free speech principles?

It's unbelievable. What's hilarious is the quote they sent me about "election misinformation," where apparently I said, "Your party rigged many of the voting rules in advance of the election in

order to ensure an extraordinary number of mail-in ballots, ballot harvesting..."

Really? FiveThirtyEight wrote in 2023, "One of the most striking aspects of the 2020 election was the unprecedented use of mail-in voting. Nearly half (43 percent) of all voters cast a ballot by mail in 2020, a record share, according to the latest Survey of the Performance of American Elections, a post-election poll of tens of thousands of registered voters run by MIT political scientist Charles Stewart III. Much of this was driven by COVID-19 — states changed voting rules and requirements to make it easier to vote by mail, and voters hoping to avoid crowded polling places in the middle of a pandemic took advantage."

Wait, that sounds like rigging the voting rules in order to increase mail-in balloting.

Maybe they ought to fact-check CBS News about ballot harvesting. In 2020, CBS News reported, "The Nevada Assembly passed legislation that would allow the state to mail a ballot to every registered voter, and the bill allows for third parties to collect ballots. Fiererson argues that the threat to Postal Service funding and the warning of mail delays 'makes ballot assistance even more important.' But critics argue it opens the door to abuse and interference. The Nevada law does not limit how many ballots a person can collect. The Trump reelection campaign filed a lawsuit against the measure in Nevada and in other states."

Again, that sounds like rigging the rules so as to increase ballot harvesting.

In 2020, the late-breaking media interference came in the form of shutting down the Hunter Biden laptop story. The New York Post had the Hunter Biden laptop story, and the social media "bros" were pressured into taking down that story by both the press and by members of the federal intelligence agencies. They shut it down. They throttled it. They prevented dissemination of the story on places like Facebook and X (formerly Twitter).

Now, they are doing something even more overt. They are overtly attempting to shut down all conservative dissemination of information on the biggest video platform in existence one week in advance of an election.

If that's not an attempt to rig an election, I don't know what is.

attorney to do his job? Why is he getting elected for a position he can't even do? Maybe we should not vote for this?

My comment is about Sharice Davids. She has done nothing for Kansas. Her office don't even respond to or return messages. All she does is lie about insulin costs. It all has to do with Medicare. Do your research and find out on your own. Stop listening to liars. Start looking to educate yourselves. What she's saying just isn't factual. Get rid of Davids.

Girard blanks Bulldogs, season concludes Thursday

GIRARD - The regular season concluded last Friday as the Anderson County Bulldogs traveled to Girard and were blanked 28-0 to end the regular season 1-7.

It was a defensive struggle early on as the only scoring of the first half came on a 67 yard touchdown run by Girard in the first quarter for a 6-0 half-time lead.

Girard broke free again in the third quarter, this time for a 57 yard touchdown run for a 14-0 lead after a successful 2-point conversion.

Girard iced the game in the fourth quarter with a pair of touchdowns on the ground.

Aidan Steele led the offense with 5 catches for 85 yards and a touchdown.

Steele led the defense as well

with 9 tackles on the night.

Garrett Tucker and Zach Schaffer chipped in with 9 stops as well.

The Bulldogs failed to qualify for the playoffs so they will conclude their season Thursday night against the Neodesha Bluestreaks (2-6) with a home game beginning at 7 p.m.

Vikings football shut down by Humboldt in loss, first round playoff game to be against St. Mary's

HUMBOLDT - It was a rough ending to the regular season for the Central Heights Vikings (4-4) football team as they were held scoreless in a 40-0 loss to Humboldt (8-0) on the road last Friday.

Humboldt jumped out to a 13-0 lead after the first quarter and stretched their advantage out to 27-0 by halftime.

They would tack on a touchdown in each of the 3rd and 4th quarter to finish out the victory.

Offense was at a premium for the Vikings as they garnered just 104 yards on the night on 44 plays.

Quarterback Brody Roulett completed 8 of 17 passes for 57 yards and an interception and added 9 carries for 24 yards on the ground, which also led the team in rushing.

Max Chrisjohn led the defense with 10 tackles, followed by 9 for Landon Lopez and 8 stops for Brody Roulett.

Humboldt was clicking on all cylinders, but the ground attack led the way as they had 346 yards on 37 carries.

Quarterback Blake Ells was 8 for 16 throwing the ball for 94 yards with one touchdown and one interception but did most of the damage with his legs as

he toted the ball 18 times for 196 yards and 4 touchdowns.

Richmond will open up postseason play on Friday, November 1, squaring off with St. Mary's (5-3) at home.

The only common opponent the two teams had this season was Council Grove. Council Grove controlled the game against the Vikings winning 58-0 while they were defeated by St. Marys 22-6.

The winner will advance to play with Osage City (8-0) or Bluestem (2-6) on Friday, November 8th.

Lancers close regular season with easy win over Waverly, begin playoffs Thursday against Lebo

COLONY - The Lancers ended their season in high flying fashion with a 70-24 win over Waverly at home on Friday night.

Kade Nilges led the offense with 154 yard passing and 125 yards rushing and a combined 4 touchdowns, 3 of them through the air.

Nilges connected on 8 of 13 passes on the night.

Henry White and Gentry McGhee each hauled in 4 passes and 2 touchdowns on the night. White had 109 yards receiving and McGhee finished the game with 51.

McGhee added 117 yards on the ground and 2 touchdowns on just 5 carries.

Jensin Barker carried the ball 13 times for 82 yards and a touchdown, Denton Ramsey had 4 carries for 62 yards and a touchdown and a score and White carried the ball for 59 yards on just 4 carries and a touchdown as well.

Barker led the defense with 10 tackles, followed by McGhee with 9 stops and Gunner Ellington 8.

Crest will open up the playoffs at home on Thursday night against Lebo (6-2).

agement experience and my understanding of the legislative process, help me bring innovative ideas to the legislature for which I have been nationally recognized. My conservative values and real-world experience have resulted in a record of cutting taxes and waste, exempting Social Security from state income tax, providing transparency in property taxes, divesting Kansas Public Employee Retirement System (KPERS) money out of China, implementing the Homestead II property tax freeze for seniors in need and disabled veterans, and many other efforts I have successfully led on. But there is more to do, like expanding the property tax freeze for seniors and disabled veterans so more people will qualify and stopping taxpayer benefits to illegals. We need strong representation to protect our 1st and 2nd Amendment rights, protect the unborn and elderly, and defend our security, especially against the biggest threat to Kansans – the national push to throw out our Constitution and establish socialism. I will be a leader in the fight for freedom. I ask for your vote. Thank you for your consideration.

Viking boys win regionals, girls 2nd

RICHMOND - Both the girls' and boys' teams came into last week's regional cross country meet on Saturday at Central Heights extremely motivated to prove that they belong and they did exactly that and so much more.

In fact, for teams that have been so dominant all season long they are still peaking at the right time. All 14 runners that competed at regionals set personal records, including the school record getting beaten once again in the boy's race.

In the first race of the day, the girls had to find a gear they haven't had yet this season and knew the competition was going to be fierce.

"Racing on our home course brought a level of intensity and fight I haven't seen so far," Vikings head coach Troy Prosser said. "It brought a lot of tears of joy and celebration as they qualified for State as a team and announced themselves a legitimate threat going into next weekend."

Ebony Hughes (2nd) and Lily Burkdoll (4th) ran stride for stride until the last 1200 meters when Ebony hit another gear and finished only six seconds from the individual victory.

Lily finished strong as well, soon followed by Melaney Chrisjohn (6th) in her final race at home. Caitlynn Detwiler (20th) and Maya Acebron (30th) both ran excellent races to finish off the scoring while Faith (5th) Coons and Arabella Dunbar (37th) both hung tight.

At the end, they all raised

the KSHSAA 2nd place plaque and all had personal records on the day giving them a lot to celebrate.

Prosser added, "I'm so incredibly proud of these girls for coming together when it mattered most and putting their absolute best efforts forth for each other. It was a true team effort and the next seven days will be spent enjoying the chance to do it one more time."

The boys had a chance to simply run conservatively and qualify but they had other plans.

Coach Prosser said from the start, they attacked every turn, every hill and every nuance of the course and through the first half of the race, they held the top seven places. In the last half of the race, Cody Hammond, Connor Burkdoll and Owen Miller pulled away like they had done all season with Stetson Miller not far behind.

They each kept pushing and Hammond (1st) once again broke his own school record (15:34.12) for the victory. Burkdoll (2nd) was hot on his heels (15:45.39) and O. Miller (3rd) narrowly missed the 16 minute barrier by just over one second.

S. Miller (4th) smashed his own personal record by 46 seconds and Josiah Meyer (6th), Christian McCord (8th) and Jotham Meyer (9th) also finished with huge personal bests to put all seven boys under the 17 minute mark.

Their 16:02 team average

now ranks them as the #6 team in all classes 1A-6A according to Kansas Milesplit.

"What they are doing is simply incredible but they still haven't achieved their ultimate goal," Prosser stated.

"There simply aren't enough great things to say about these boys and girls. They could take the easy way but they choose to push to their absolute limits and do it for each other and that means so much more than any individual achievement," added Prosser. "I have a tremendous amount of gratitude for each and every one of them. Next week at Wamego, they get one more shot to make some incredible memories at Wamego in the 2A State Championships!"

Bulldogs XC fails to qualify for state

RICHMOND - The season came to an end for the Anderson County Bulldog cross country teams at last Saturday's 3A regional meet which took place at Central Heights High School.

The top finisher on the day was Grant Nienstedt (17:43) in 13th place.

Brodie Wiesner (18:10, 20th)

and Brody Barnes (18:13, 21st) finished back to back.

Wesley Mills (19:18, 34th), Zykin Velvick (19:46, 39th) and Owen Hawkins (21:11, 54th)

also ran for the Bulldogs.

The only girl runner at regionals was Hope Hill who finished with a time of 24:58, good for 43rd place.

Peyton Schmidt

The Crest Lancer cross country runner finished 5th at Regionals with a time of 21:25 to help her team win the Regional Championship and qualify for state.
